

## Abdel Manaf Ourotou

### Front end web developer

Washington, DC | 347 325 3227 | Oouroumanaf6@gmail.com | [GitHub](#) | [Portfolio](#) | [LinkedIn](#)

Frontend Developer and Army Veteran who solves complex problems requiring a technical solution. I bring an ideal combination of dedication, teamwork and quick learning style to quickly diagnose and drive organizational success through technology. Worked through 1000+ hours of bootcamp structure, learning JavaScript, Node.js, React.js.

### SKILLS

HTML5, CSS3, JavaScript, Bootstrap, Tailwind, Node RESTful API's, Agile, Heroku, Netlify, Debugging, Responsive Design.

### RELEVANT EXPERIENCE

#### Noorazi - Web Developer

May 2019 - current

- Actively engaged in web creative design and development. Provided technical support for 10+ existing online products.
- Created and deployed mobile-first applications while learning new languages and frameworks.
- Completes development tasks independently as well as under direction from the product architect and development leads.
- Designs, builds, and maintains efficient, reusable, and reliable platforms.
- Maintains code quality, organization, and cleanliness.
- Collaborates across teams and departments to design solutions that efficiently deliver the required enhancements on time and within budget.
- Extensive knowledge of CSS/CSS3, SCSS and SASS. In-depth understanding of flexbox, media queries, and relative length units to make responsive layouts for all screen sizes.
- Adept at working across all device platforms as well as serving the appropriately sized media for the client device in order to keep resource usage at a minimum and getting the first page load time to be as fast as possible
- Working with a Single Page Application to deliver the best performance and using guards to restrict data access to unauthorized individuals
- Self-starter mindset: Adaptability & resiliency, self-motivation and time management are vital.
- Comfortable on the command line.
